

## AMSONIC EVD 80

**Kind : Washing machine**  
**Manufacturer : AMSONIC**  
**Model : EVD 80**  
**Year : 1998**  
**Serial : 50446**  
**Stock : 9765**

Automatic degreasing machine for washing and drying.  
Machine revised by Amsonic, in September 2013.  
Revision by Amsonic in 10/2016.

### TECHNICAL DETAILS

|                                                          |                         |
|----------------------------------------------------------|-------------------------|
| - product                                                | : hydrocarbon class A3  |
| WASHING CYCLE                                            | :                       |
| - automatic basket load                                  |                         |
| - washing tank filling                                   |                         |
| - automatic basket rotation                              |                         |
| - exposure to ultrasounds                                |                         |
| - washing tank draining                                  |                         |
| - rinse under vacuum in vapor phase with adjustable time |                         |
| - drying under vacuum with adjustable time               |                         |
| - regeneration through distillation under vacuum         |                         |
| WORKING CHAMBER                                          |                         |
| - diameter                                               | : 530 [mm]              |
| - depth                                                  | : 600 [mm]              |
| TANK                                                     |                         |
| - dimensions                                             | : 800 x 1100 x 300 [mm] |
| - volume                                                 | : 160 [L]               |
| - supply                                                 | : 3x 400 [V]            |
